Chinese for Beginners

About this course: Nowadays, there is an increasing number of people who are interested in Chinese culture and language. And it is useful to know about the language when coming to China for travel or business. This is an ABC Chinese course for beginners, including introduction of phonetics and daily expressions. After taking this class, learners can have a basic understanding of Chinese Mandarin and make basic conversations of daily living such as exchanging personal information, talking about daily arrangements and food, asking about price, introducing the city and the weather, telling your hobbies etc. Selected topics and situations come from real life scenarios and can be used for everyday communications. In addition to the dialogues, the selection of reading materials and practice activities will make the content as rich and varied as possible, in order to stimulate the learners' interests. This is an elementary course on Chinese speaking. The learners don't need to study Chinese characters, so it is easier to follow and complete this course.

CLOZE TEST

Paste your text below:

The Huguenot-Walloon half dollar is a commemorative coin issued by the United States Bureau of the Mint in 1924. It marks the 300th anniversary of the voyage of the Nieuw Nederland. Many of the passengers were Protestants, Huguenots from France or Walloons from Belgium; they became early settlers of New York State and the surrounding areas. A bill to authorize the coin passed through Congress without opposition in 1923 and was signed by President Warren G. Harding. Sketches were prepared by Rev. John Baer Stoudt and converted to plaster models by the Mint's chief engraver, George T. Morgan. Of the 300,000 coins authorized by Congress, fewer than half were actually struck, and of these, 55,000 were returned to the Mint and released into circulation. The coin excited some controversy because of its sponsorship by a religious group. The coins are currently valued in the hundreds of dollars, depending on condition.
